**PROFESSIONAL
FOOD SERVICE EQUIPMENT
SUPPLIER**

Message From Managing Director

First of all thank you for your interest in the Sunnex Brand and Sunnex Group of companies. Sunnex Products Limited is a Hong Kong based company specializing in the manufacturing of catering and household items since 1972. Sunnex is a member of the Sunbeam Manufacturing Company group whose history dates back to 1929. The Group now has businesses in property management, manufacturing, import and export trading and investment in related businesses.

Over the last three years, the catering industry has been hard hit by COVID-19 pandemic. But Sunnex has survived this pandemic through careful cash management and our focus in satisfying customers with attentive service and continued product innovation. Exporting business is not a simple process of order taking and logistic arrangement. In the pandemic years, we scurried around for containers and finding ways to reduce freight costs. In the recovering years, we are working hard to contain cost increases and improve production efficiencies.

The company has a vision to become a hundred year brand and a leading supplier and service provider for the professional food service industry. Our mission is clear, that we want to provide good service and quality products so that we can keep our customers happy. As a result, we are consistently improving and expanding our product ranges to cover wider customer needs, improving our supply chain, designing innovative new products, increasing efficiency through manufacturing automation. Our innovations continue to be a driving force in the Buffet Equipment industry.

Integrity, Innovation, Professionalism, Win-Win Cooperation, Attention to End User Needs

Our corporate core values are: Integrity, Innovation, Professionalism, Win-Win Cooperation, and Attention to End User needs. These core values enable us to remain a successful business over the past ninety years and continue to meet challenges year after year. We are determined to meet our customer's needs by optimizing customer service and making product design that can put a smile on the face of our end-users. We valued business integrity and respected our business partners, many of our business partners have been with us for over 30 years or more. And that our trading network has expanded to over 70 countries worldwide.

Although not frequently talked about in the catering equipment manufacturers, ESG has long been a part of Sunnex's culture. Our emphasis in fully electrical buffet food warming will continue to offer low carbon solutions to our customers and industry, our strong financial position and attentiveness to end users' need will keep our business sustainable in the long run. With a strong commitment to conduct business with the highest standards of ethical conduct, I am confident that we will continue to grow and work with our partners and stakeholders to build a better world for tomorrow.

Michael Yu, Director, Sunnex Products Limited

BUFFETWARE

Why is it called Lido?

Inspired by the elegance of Italy's famous Lido Island, this chafer series captures the charm of luxury hotels and seaside resorts, bringing a premium touch to your buffet setup.

IT'S HOT!

Lido Chafing Dish Series
Ensuring every meal stays fresh and delicious.

Lido Series Electric Chafer

- **Efficient Heat-Up & Auto Energy Saving:** Heat-up quickly with 1100W in 16 minutes, automatically adjust to energy save warming mode at 400W when temperature is reached.
- **Convenient Cleaning:** Water pan can be taken out of the electrical body for water removal and cleaning. It comes with auto power-off to enhance protection.
- **Safe Touch:** Specially designed air barrier structure prevents high-temperature burns when touching the chafer body surface.

Digital Control

Save Environment

Sunnex advanced dry heat technology minimizes energy consumption compared to previous electric chafers with water pan and heating element. It takes about 15 minutes to heat up from cold, yet it only consumes 400 watts, while the old-style electric chafers uses 900 watts. Therefore you can keep the food hot and delicious while using half the energy, thus contributing to the planet without sacrificing quality.

Precise Temperature Control

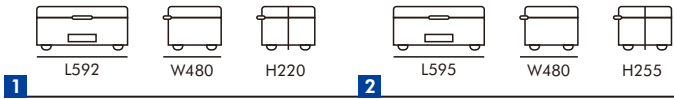

It is common knowledge that need to maintain a hot or consistent temperature. However, it is difficult to ensure when using traditional chafers with fuel. The digital display temperature control allows you to know the temperature at a glance.

No More Worry for Water Level

Traditional chafers use hot water to keep food warm. Not only do you need to wait for water to be heat up, you also have to keep watching water pans not getting dry. By eliminating the need for water pan, Sunnex Waterless Dry Heat Chafers saves manpower and conserves water. Say goodbye to the messy constant water refills associated with traditional chafers.

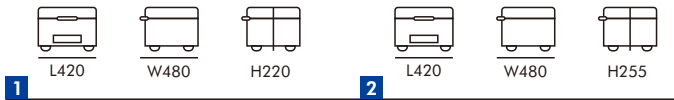

Rectangular 1/1 Chafers

- 1 W21-11HLM0**
Size: 592 x 480 x 220mm

VIENNA CHAFER

www.sunnex1929.com

Advantages

Induction Friendly

Top part of the Vienna chafer is fixed with sandwich bottom that enables heat conduction on induction stove. It brings you up to the trend of induction. No more mess with fuel.

Tempered Glass Window

Made of tempered glass, the large window allows viewing of delicious food without opening.

Advanced Hydraulic Hinge

Smooth, slow and quiet closing with 80000 times guarantee.

Optional Frames

In case you are not yet ready for induction, Vienna chafer could be fit with two optional frames: Alloy legs provide flexibility to fit with electric heating unit or fuel; Compact frame provides integrated one piece look for use with electric heating plate.

SICILY CHAFER

Advantages

Induction Friendly

Induction warming is safe and convenient. Making it a trending choice for the catering industry. The base of the Sicily chafers features a fixed sandwich bottom, enabling it to conduct heat on induction stoves. It brings you up to the trend. No more mess with fuel.

Wide Glass Window

The cover comes with a wide tempered glass window, allowing you to view the food without opening the cover. The design helps prevent heat loss from frequent opening and closing.

Advanced Hydraulic Hinge

Smooth, slow and quiet closing with 80000 times guarantee.

Optional Frames

In case you are not ready for induction, optional frames are available for you to use the traditional method for warming.

Open lid height: 738mm

W36521
Round 36cm, 6.8L food pan
Size: 413 x 542 x 225mm
Open lid height: 705mm

SPECIFICATION

- Voltage: 230V AC 50/60Hz.
- Power Consumption: 600W.
- Lid Closing Time: 20-40s (adjustable).
- Temperature adjustable from 40 to 90 degree C with accuracy $\pm 5^{\circ}$.
- Stainless Steel 304 Food Pan and Cover
- 3 Levels of Preset Temperature.

Advantages

Precise Temperature Control

Through high-precision electronic circuit design, precise temperature control is realized. No more guessing with fuel.

Integrated One Piece Design

Water pan and the base are integrated as one piece, enable better heat conduction and temperature stability.

Digital Display Panel

No radiation, low energy consumption, clear and easy to read.

Advance Hydraulic Hinge

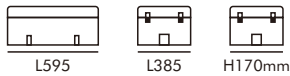

Smooth, slow and quiet closing with 80000 times guarantee.

OUTDOOR BUFFET CHAFER

Application Scenario:

- Team Building
 - Outdoor Sports
 - Military Logistics Distribution
 - Group Meal Delivery
- Wedding Buffet
 - Medicial Transportation
 - Bento Delivery

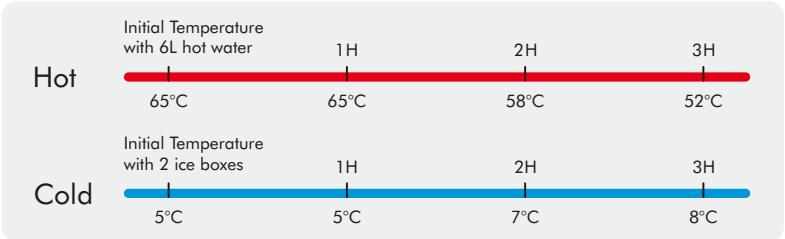

W11-1111Y
Outer dimensions: 595 x 385 x 170mm
Size: 530 x 325 x 65mm, 8.5L

SPECIFICATION

- Dual use of heat and cold insulation.
- Ergonomic, built-in handles with stainless steel lock.
- Extra strong LDPE exterior made for durability.
- Good for outdoor serving, storage and transportation.
- Can hold 1/1 size, 1/2 size or 1/3 size food pan.
- Matching silicone sealed cover optimizes performance.
- Stackable for easy transportation and storage.

Insulation Effect

Food Warmer Lamp

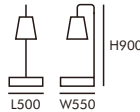

- Equipped with a built-in high-efficiency heating element.
- Utilizes a high - power infrared light bulb.
- Offers a wider variety of styles for you to select from.
- Diverse products adapted for various application scenarios.
- Constructed to be sturdy, resistant to deformation, with an elegant appearance.
- Enables real - time monitoring of temperature changes and precise temperature adjustment.

Cast Iron Cookware

Sunnex's professional tradition continues with evolution of cast iron cookware with ceramic coating. Combining cast iron with ceramic effect, the range provides superior heat retention which enlightening the taste of food. The ceramic surface allows food to be marinated and refrigerated, and then cooked, served and stored. Good for any kitchen stovetop, outdoor grill or open fire. A beautiful alternative for household and commercial kitchens and also on buffet tables.

- Oven safe to 500 degrees F.
- Induction friendly.
- Good from worktop to stove and to the table.

360° heat distribution

Thick and durable

Uniform heating

Cast iron pot can be used together with an induction cooker.

Sizes of Gastronorm Pans

Gastronom (GN) originated in the 1960s, now it has become a basic kitchenware in the international catering industry. Its benchmark specification is 1/1 size with length 530mm x width 325mm, other gastronorm sizes are multiples and submultiples of this basic module size and often shown in terms of fraction. For example, size of a GN 1/2 container (325 x 265mm) is half of a GN 1/1 container.

Why Choose 304?

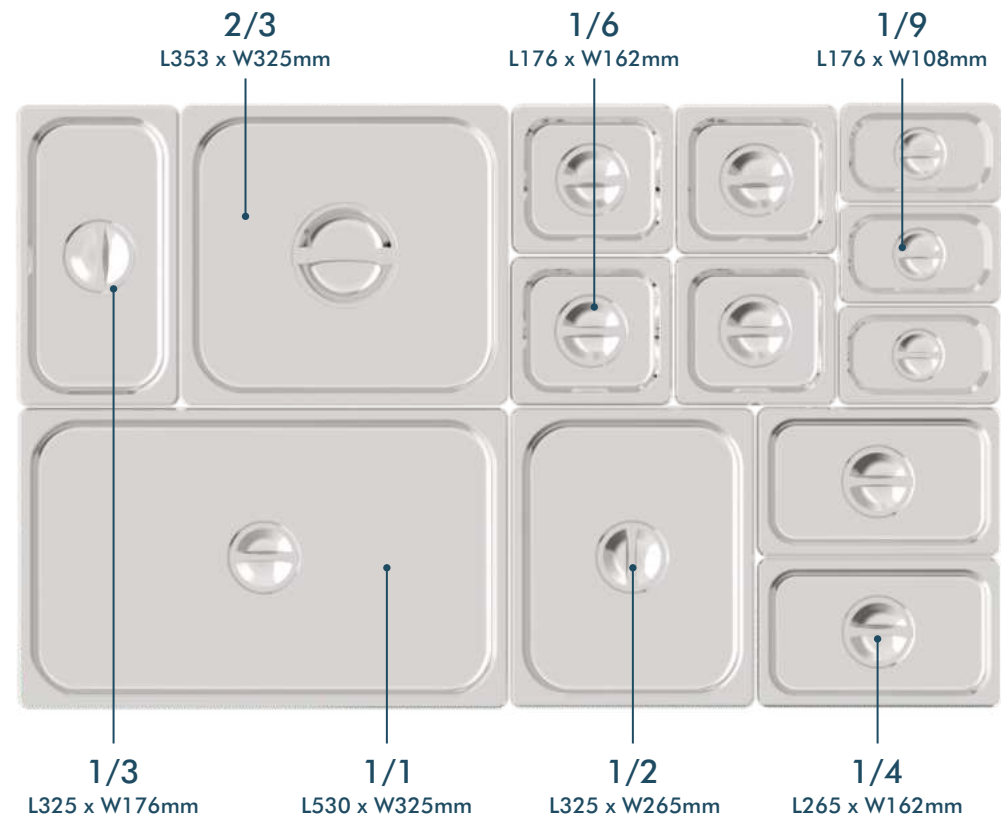

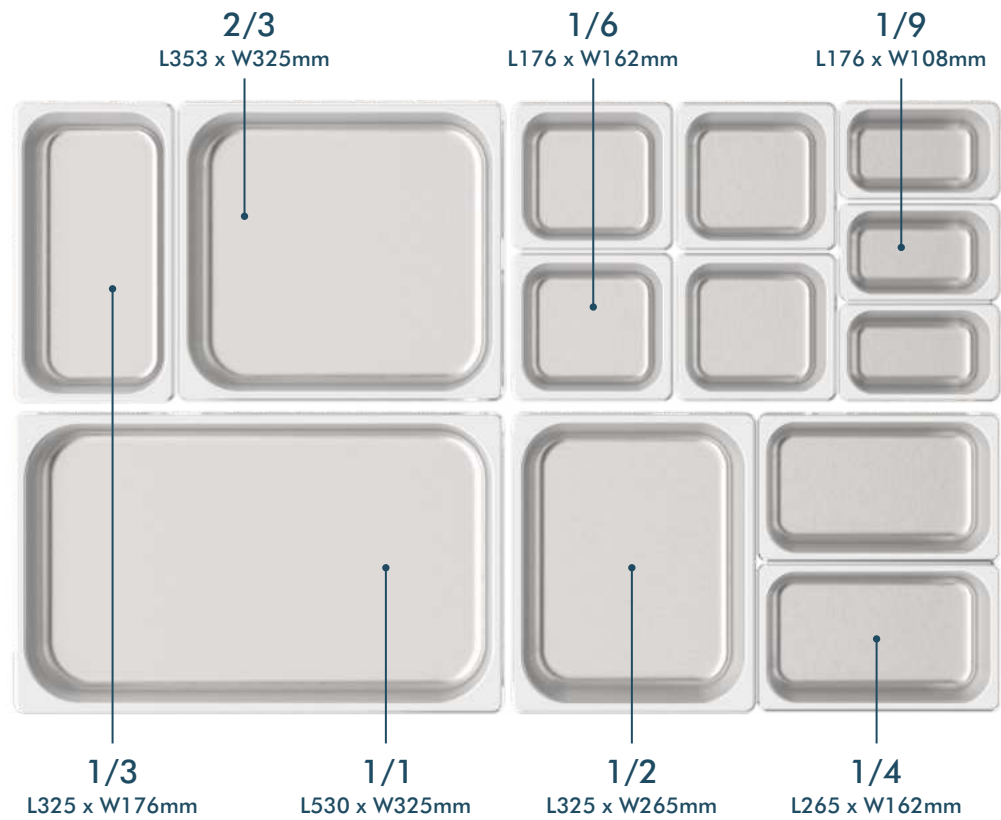

Material	304 Stainless Steel	201 Stainless Steel
Chromium		
Chromium can enhance the corrosion and rust resistance of steel. More expensive.		
Nickel		
Nickel can enhance the corrosion and rust resistance of steel. More expensive.		
Manganese		
Manganese can increase strength, toughness and hardenability of steel. Lower cost.
